内容概要

If you received a passcode card with your book for the Standard & Poor's web site, you will be able to access the Educational Version of Market Insight, which uses Standard & Poor's Compustat database to provide six years' worth of data on 100 top publicly held U.S. companies. The data provides limitless opportunities for discussions, homework, or group projects--- all based on up-to-the-minute real-world information.
