

<<内分泌生理学 Endocrine Ph>>

图书基本信息

书名：<<内分泌生理学 Endocrine Physiology>>

13位ISBN编号：9780071402576

10位ISBN编号：0071402578

出版时间：2003-9

出版时间：McGraw-Hill Professional

作者：MOLINA

页数：298

<<内分泌生理学 Endocrine Ph>>

内容概要

This concise overview of hormone biological actions introduces basic science principles and their relevance in the clinical expression of disease. Each chapter incorporates a wealth of pedagogical aids including: study questions, learning objectives, and clinical examples.

书籍目录

Preface
Chapter 1 General Principles of Endocrine Physiology The Endocrine System: Physiologic Functions & Components~ Hormone Chemistry & Mechanisms of Action Hormone Cellular Effects Hormone Receptors & Signal Transduction Control of Hormone Release Assessment of Endocrine Function
Chapter 2 The Hypothalamus & Posterior Pituitary Gland Functional Anatomy Hormones of the Posterior Pituitary
Chapter 3 Anterior Pituitary Gland Functional Anatomy Hypothalamic Control of Anterior Pituitary Hormone Release Hormones of the Anterior Pituitary Diseases of the Anterior Pituitary
Chapter 4 Thyroid Gland Functional Anatomy Regulation of Biosynthesis, Storage, & Secretion of Thyroid Hormones Diseases of Thyroid Hormone Overproduction & Undersecretion Evaluation of the Hypothalamic-Pituitary-Thyroid Axis
Chapter 5 Parathyroid Gland & Ca²⁺ & PO₄⁻ Regulation Functional Anatomy PTH Biosynthesis & Transport PTH Target Organs & Physiologic Effects Calcium Homeostasis Diseases of PTH Production
Chapter 6 Adrenal Gland Functional Anatomy & Zonation Hormones of the Adrenal Cortex Hormones of the Adrenal Medulla
Chapter 7 Endocrine Pancreas Functional Anatomy Pancreatic Hormones Diseases Associated with Pancreatic Hormones
Chapter 8 Male Reproductive System Functional Anatomy Gonadotropin Regulation of Gonadal Function Gonadal Function Physiologic Effects of Androgens at Target Organs Neuroendocrine & Vascular Control of Erection & Ejaculation Diseases of Testosterone Excess or Deficiency
Chapter 9 Female Reproductive System Functional Anatomy Gonadotropin Regulation of Ovarian Function Ovarian Hormone Synthesis Ovarian Cycle Endometrial Cycle Physiologic Effects of Ovarian Hormones Age-Related Changes in the Female Reproductive System Contraception & the Female Reproductive Tract Diseases of Overproduction & Undersecretion of Ovarian Hormones
Chapter 10 Endocrine Integration of Energy & Electrolyte Balance Neuroendocrine Regulation of Energy Storage, Mobilization, & Utilization Electrolyte Balance Neuroendocrine Regulation of the Stress Response Answers to Study Questions
Appendix Table 1 Normal values of metabolic parameters and tests of endocrine function: Plasma and serum values Table 2 Normal values of metabolic parameters and tests of endocrine function: Urinary levels
