内容概要

Newsweek, March 20, 2006 issue - Wealth: Grow It, Protect It, Spend It, and Share It by Stuart E. Lucas
Congratulations! You've just come into some cash. But what to do next? With \$1 trillion per year expected to pass from one generation of Americans to another over the next decade, it's a question more people than ever are facing. Writing from the perspective of one who has managed wealth for clients, as well as received it (he's an heir of Carnation Foods' founder) , Lucas shows step by step how to set investment goals that match your needs and values, pick the right advisers, manage taxes and avoid the pitfalls that shrink fortunes and fracture relationships.
