内容概要

Drawing on 20 years of experience as Comptroller and Auditor General, and head of the United Kingdom National Audit Office, *Public Sector Auditing: Is it Value for Money?* is Sir John Bourn 's own account of the role and influence value for money auditing has in holding governments to account and in helping public bodies improve the ways in which they deliver services. Key features include: In-depth case studies from UK, US, Canada, China, India and Australia; Detailed analysis of complex areas of public expenditure such as health, education, privatisation, regulation, defence and IT; Examples of how auditing can promote positive outcomes rather than negative post mortems. This book is relevant for people working in both the public and private sectors, and should be essential reading for the staff of public sector audit institutions around the world, as well as commercial accountancy firms and students of accountancy, politics, economics and public management.

书籍目录

Contents Preface Acknowledgements 1 Introduction 1 Modern Public Administration 1.2 The Traditions of State Audit 1.3 The Contents and Argument of this Book 2 Why Bureaucracy Will Never Work 2.1 Public Programmes are Often Late, Cost More than Planned and do not Work s Intended 2.2 The Causes of Public Programme Failure 2.3 Bureaucracy ' s Fundamental Flaw 2.4 Literary Insights 2.5 Wider Problems with Bureaucracy 2.6 The Flaws of Bureaucracy have been Reinforced by Traditional Audit 2.7 Summary 3 The Failure to Analyse Outcomes 3.1 How is Value for Money to be Secured? 3.2 Traditional Outputs are Valuable but Cannot Demonstrate Value for Money 3.3 Public Choice 3.4 Cost Benefit Analysis and Cost Effectiveness Analysis 3.5 Value for Money Auditing 3.6 Greater Focus on Outcomes 3.7 More Sophisticated Diagnostic and Analytical Techniques 3.8 Summary 4 How Effective Audit can be Secured – the Auditor as Soach and Mentor Rather than Critic and Nark 4.1 How can Progress be Made? 4.2 Separate Methodologies for Separate Subjects 4.3 The Meanings which Participants give to their Roles 4.4 Understanding ' Accountability ' 4.5 The Relevance of Social Anthropology 4.6 The Auditor as Coach and Mentor 4.7 Conclusion 4.8 Summary 5 Privatisation – The Alternative to Bureaucracy? 5.1 Private and Public Sector Approaches Compared 5.2 Getting the Best from Privatisation 5.3 The Privatisation Process – the General Issues 5.4 Getting the Best from Privatisation 5.5 The Importance of having the Right Pre-conditions in Place to Maximise the Success of Privatisation 5.6 Conclusion 5.7 Summary 6 Public Private Partnerships—Another Option 6.1 Getting the Best from PFI/PPP Deals 6.2 Selecting the Best Project 6.3 Applying the Proper Processes to PPP/PFI 6.4 Selecting the Best Bid 6.5 Checking the Deal Makes Sense 6.6 Delivering Long Term Value for Money 6.7 Good Practice for the Future 6.8 Questions for the Future 6.9 Summary 7 Regulations—Bureaucracy ' s Tentacles 7.1 Bureaucracies Cause Regulations to Grow – for Commendable and Less commendable Reasons 7.2 The Costs of these Regulations are Hidden, and Quite Pernicious 7.3 The Auditor can Help to Some Extent. . . 7.4 . . .
