## &lt;&lt;Shopaholic and Sister&gt;&gt;

## 内容概要

The latest in the "Shopaholic" series from one of the brightest talents in contemporary women's fiction. "Shopaholic Ties The Knot" has sold nearly 300,000 copies and Kinsella's last novel, "Can You Keep A Secret?" went straight into the top ten bestsellers charts. This time, Becky discovers a sister she didn't know she had, but there's a problem... her sister hates shopping.

England is a land of plentiful shopping opportunities and colorful regional accents, and actress Kellgren nails the latter in her charming rendition of Kinsella's newest Shopaholic novel. Just home from her honeymoon, Becky Bloomwood, now the wealthy wife of Luke Brandon, learns she has a long-lost half-sister. The news delights Becky, who fantasizes about late-night sisterly chats and shared cappuccinos. But Jess turns out to be not at all what Becky expected. In a dour Cumbrian accent that contrasts deliciously with Becky's posh inflections, Jess berates Becky for her irresponsibility and belittles her addiction to shopping. Their verbal battles leave little hope for reconciliation, until serious marital troubles brought on by Becky's shopping habit find her turning to Jess for guidance. Things get worse before they get better, and Kellgren's vivacious reading never fails to plumb the depths of Becky's despair. How will Luke forgive her for setting him up with a criminal client all in the name of a coveted Angel bag? Will Jess ever speak to Becky again after she expounds on her sister's faults in front of Jess's entire small village? Ultimately, the hilarious mayhem winds down to an inevitable happy ending, avoiding deep thought in favor of pure fun.

Becky Bloomwood, shopaholic extraordinaire, is back. She and her new husband, Luke Brandon, have been on a whirlwind ten-month honeymoon that's taken them all around the world, but both are itching to get back to London. When they do return, Becky is disturbed to discover that her best friend has a new good buddy, and Becky's parents are acting strangely. It turns out that they've just learned that her dad fathered a child a few years before he met her mother. Becky is thrilled to learn she has a half-sister, until she meets Jess. Jess is nothing like Becky: her clothes aren't fashionable, she prefers dank caves to shoe stores, and she is incredibly frugal. After an awkward weekend together, the sisters part company on bad terms. To make matters worse, Becky's gotten herself into a pickle with a purchase that could put a strain on her marriage. Like the previous installments, Shopaholic & Sister is hilarious fun for Prada and Gucci aficionados.
