<<基础护理远程虚拟临床2.0>>

内容概要

Dynamic and engaging, this workbook/CD-ROM package for Fundamentals of Nursing, 2nd Ed. guides users through a multi-floor virtual hospital in a hands-on learning experience. The student is actively engaged with the workbook, CD-ROM and parent text throughout each lesson. Each lesson has a core textbook reading assignment and activities based on "visiting" the patients in the hospital. The lessons in the workbook complement the content in the textbook and provide a perfect environment in which students may "practice" what they are learning in the text. To further enhance the lessons, the CD-ROM features built-in testing of clinical knowledge with NCLEX type questions that provide immediate feedback of clinical knowledge, priorities, and communication.

书籍目录

Getting Started  
Getting Set Up  
A Quick Tour  
A Detailed Tour
