<<正畸与口腔外科医师面部与口腔设计>>

内容概要

This superbly illustrated, practical textbook explains how to plan a position for the jaws and teeth to optimize the facial profile for each patient. Written by an internationally-respected author team, this authoritative resource also provides coverage of a new approach to facial planning that could soon become the standard method for orthodontists and oral surgeons.

书籍目录

1.Overview - treatment goals restated 2.History-taking - a form-based protocol 3.The clinical examination
4.Record taking - a basis for treatment success 5.Diagnosing the case 6.Treatment planning for the TMJs and
musculature 7.Facial treatment planning 8.Orthodontic treatment planning Index
