<<你不知道的里根>>

内容概要

During his White House years, President Reagan earned the love and admiration of millions and altered the course of history. As his executive assistant, Jim Kuhn was responsible for helping the most powerful man in the world manage his time and information, and was one of very few people privileged to see the Great Communicator behind the scenes. Here he captures the laughter, resolve, sensitivity and discomforts of the man who won the Cold War and restored America's confidence . a man who showed the same respect to an anonymous caller as he did to Pope John Paul II; who was more perceptive than the press would admit; and who never let the power and prestige of the presidency go to his head.
