内容概要

This user-friendly volume provides you with the knowledge you need in pharmacology, without extraneous details. Concise text and clear illustrations help you move through the subject at an accelerated pace. This book will also help you to apply the most important basic science concepts to everyday clinical problem solving and decision making. The new edition has been thoroughly updated to incorporate the most commonly used drugs, and advances in hormone replacement therapy, and more. You'll also find a new self-assessment section at the end of each chapter. Includes self-assessment sections at the end of each chapter to help you test your knowledge.

Contains comprehensive updates throughout, including the latest information on HRT and drug names.

Evolve site includes image bank and question bank for instructors. Includes access to www.studentconsult.com where you'll find the complete text and illustrations of the book online, fully searchable

- "Integration Links" to bonus content in other STUDENT CONSULT titles
- 300 new USMLE-style review questions, with answers and rationales
- content clipping for handheld devices
- an interactive community center with a wealth of additional resources
- and much more!

Presents concise text focusing on the 'must-know' information in Pharmacology. Summarizes information in tables for quick reference and review. Uses abundant illustrations to help explain difficult concepts visually. Integrates material from other basic sciences to show how drugs affect the body.

书籍目录

Preface

SECTION I PRINCIPLES OF PHARMACOLOGY 1 Introduction to Pharmacology 2
Pharmacokinetics 3 Pharmacodynamics 4 Drug Development and Safety

SECTION II AUTONOMIC AND NEUROMUSCULAR PHARMACOLOGY 5 Introduction to Autonomic and Neuromuscular Pharmacology
6 Cholinergic Receptor Agonists 7 Cholinergic Receptor Antagonists 8 Adrenergic Receptor Agonists 9
Adrenergic Receptor Antagonists

SECTION III CARDIOVASCULAR, RENAL, AND HEMATOLOGIC PHARMACOLOGY 10 Antihypertensive Drugs 11 Antianginal Drugs 12 Drugs for Heart Failure 13
Diuretics 14 Antiarrhythmic Drugs 15 Drugs for Hyperlipidemia 16 Anticoagulant, Antiplatelet, and
Fibrinolytic Drugs 17 Hematopoietic Drugs

SECTION IV CENTRAL NERVOUS SYSTEM PHARMACOLOGY 18 Introduction to Central Nervous System Pharmacology 19 Sedative-Hypnotic and
Anxiolytic Drugs 20 Antiepileptic Drugs 21 Local and General Anesthetics 22 Psychotherapeutic Drugs 23
Opioid Analgesics and Antagonists 24 Drugs for Neurodegenerative Diseases 25 Drugs of Abuse

SECTION V PHARMACOLOGY OF THE RESPIRATORY AND OTHER SYSTEMS 26 Autacoid Drugs 27 Drugs for
Respiratory Tract Disorders 28 Drugs for Gastrointestinal Tract Disorders 29 Drugs for Headache Disorders
30 Drugs for Pain, Inflammation, and Arthritic Disorders..

SECTION VI ENDOCRINE PHARMACOLOGY 31 Hypothalamic and Pituitary Drugs 32 Thyroid Drugs 33 Adrenal Steroids and Related Drugs 34 Drugs
Affecting Fertility and Reproduction 35 Drugs for Diabetes Mellitus 36 Drugs Affecting Calcium and
Bone

SECTION VII CHEMOTHERAPY 37 Principles of Antimicrobial Chemotherapy 38 Inhibitors of
Bacterial Cell Wall Synthesis 39 Inhibitors of Bacterial Protein Synthesis 40 Quinolones, Antifolate Drugs, and
Other Antimicrobial Agents 41 Antimycobacterial Drugs 42 Antifungal Drugs 43 Antiviral Drugs 44
Antiparasitic Drugs 45 Antineoplastic and Immunomodulating Drugs
