## 内容概要

**THE AFRICA BOOK** Africa: a continent of exhilarating adventure, fascinating cultures and extraordinary wildlife and landscapes, where just one experience will never quite articulate the magic of the place. Herds of wild animals crossing acacia-dotted plains, remote cultures that time seems to have forgotten, the monumental vestiges of crumbled empires, as well as the dire realities of war, disease and famine - Africa is all this and much more. From Cape Town's gleaming shopping arcades to the remote tribal settlements on Lake Turkana's shores, The Africa Book draws together a definitive collection of the sights, sounds and tastes of this spellbinding continent. Here's how to start - open at any page and begin your own journey. Float down the Nile in a felucca, visit the mountain gorillas of Rwanda, catch mbalax fever on Dakar's glittering dance floors, relax under the palms on Zanzibar's powdery white beaches. Let Lonely Planet's photographers, authors and travellers lead you through five regions, 54 countries and inspire you to embark on the journey of your life.

**THE CONTINENTS SERIES** Consisting of titles on Asia and Africa (Europe and The Americas forthcoming), Lonely Planet's Continents series follows in the footsteps of bestselling The Travel Book. Each book is a one-stop, comprehensive guide to all corners of the continent, offering the chance to browse, get under the skin and move through the lifeblood of every country in the region. Including an introduction to the continent, famous and historic journeys, facts and figures, thoughtful essays and above all a visual feast of beautiful and unusual photographs, this series stimulates the senses and transports the reader on a journey of imagination and possibility.
