<<Planet Earth (精装)>>

内容概要

Discover our world and beyond with I Discover My First Library of Knowledge. This beautifully illustrated multi-volume general knowledge series is the ideal complete first reference library for enquiring young minds. We live in an amazing world, with all sorts of places and climates, but how is the world made and how does the weather happen?

Planet Earth explains the many features of the world, from rocks, deserts and caves to glaciers and rivers. Learn how clouds form, how the seasons occur and why earthquakes, volcanoes and storms happen.

length: (cm)28.6
