内容概要

"I doubt whether there are many people better qualified than Professor Graham A Matthews to have written it he examines the subject from the farmer's viewpoint and deals with the various application methods needed in relation to the major crops."Pest Management Focus"The book contains much information not readily obtainable in such a concise form. The author's scientific versatility is reflected in the variety of topics covered and, on the basis of his accumulated experience, Professor Matthews has succeeded in condensing a great amount of material to provide an excellent survey of pest problems and control measures in terms of practical application of pesticides."Pest Management Science, 2001
