<<美人如玉剑如虹 Scaramouche>>

内容概要

"He was born with a gift of laughter and a sense that the world was mad." Thanks to that famous opening sentence the swaggering hero of Scaramouche bounds onto the book's centerstage with considerable panache. And for hardly a moment thereafter does *Uldr&Louis Moreau* lose his charismatic cool, displaying at almost every turn in the tumultuous course of his picaresque adventures the verve, the wit, the intellectual and physical adroitness, and the instant mastery of circumstance that are his birthright. Given the time and place, it is indeed an invaluable patrimony, for though when we meet him *Andre Louis* is a young lawyer in a quiet French country town, France at large is on the brink of revolution, the nation's masses rising up against the entrenched tyrannies of the privileged. Quickly the era's whirlwind sweeps our hero away on a protean progress: transforming himself as occasion dictates, *Andre-Louis* becomes for example, "Onnles Omnibus," incendiary orator of the people's cause; later, he's plain "Andre Louis," master of a fencing academy and death-dealing artist of the sword; and in between he's "Scaramouche" himself, actor with--and brilliant scenarist for--a troupe of traveling players. With all these colorful set-pieces playing against a backdrop of high historical drama, it's no wonder so many of *Rafael Sabatini's* readers through the years have judged this the best of his novels.

<<美人如玉剑如虹 Scaramouche>>
