内容概要

This book constitutes the refereed proceedings of the Third International Workshop on Databases in Networked Information Systems, DNIS 2003, held in Aizu, Japan in September 2003. The 11 revised full papers presented together with 9 invited papers were carefully reviewed and selected for presentation. The papers are organized in topical sections on Web intelligence, information interchange and management systems, information interchange among cyber communities, knowledge annotation and visualization.

书籍目录

Web Intelligence The World Wide Wisdom Web (W4) Web Information Personalization: Challenges and Approaches An Adaptive E-commerce Personalization Framework with Application in E-banking
Accessing Hidden Web Documents by Metasearching a Directory of Specialty Search Engines Hidden Schema Extraction in Web Documents Automatically Customizing Service Pages on the Web for Mobile Devices
Information Interchange and Management Systems Author-X - A System for Secure Dissemination and Update of XML Documents What's Wrong with Wrapper Approaches in Modeling Information System Integration and Interoperability? Browsing and Editing XML Schema Documents with an Interactive Editor
On-Line Analysis of a Web Data Warehouse Web Information Integration Based on Compressed XML
Information Interchange among Cyber Communities Supporting the Conversational Knowledge Process in the Networked Community Intelligent Management of SLAs for Composite Web Services Malu Castellanos, Fabio Casati, Umeshwar Dayal, PC Cluster Based Parallel Frequent Pattern Mining and Parallel Web Access Pattern Mining
NetIsle: A Hybrid Peer-to-Peer Groupware System Based on Push Technology for Small Group Collaboration An Improved Optimistic and Fault-Tolerant Replication Protocol
Knowledge - Annotation and Visualization Visual Data Mining of Large Spatial Data Sets An Analysis and Case Study of Digital Annotation Vectorization of Graphical Components in Sketch-Based Interfaces Fernando Ferri and Patrizia Grifoni
A Data Placement Method of HSM for Streaming Media Server in Network Environment Yaoqiang Xu, Chunxiao Xing, and Lizhu Zhou Application of Active Real-Time Objects and Rules in Semantic Web
