## 前言

《实用英语》是一套供高等专科学校使用的英语教材。

本教材的编写以国家教育委员会1993年颁发的《普通高等专科学校英语课程教学基本要求》为依据。

《基本要求》规定：普通高等专科学校英语课程教学的目的是，培养学生掌握必需的、实用的英语语言知识和技能，具有阅读和翻译与本专业有关的英文资料的初步能力，并为进一步提高英语的应用能力打下一定的基础。

为了体现上述教学目的，在编写《实用英语》过程中我们既注意吸收现代外语教学理论中适合我国英语教学实际的某些观点，又采纳传统外语教学的某些合理部分，结合我国外语教学中行之有效的理论和方法及现状，力求正确处理好语言基础和语言应用的关系，突出加强语言能力的培养和实际运用，最终达到使学生通过两年的学习，具有阅读和翻译与本专业有关的英文资料的初步能力，并为今后进一步提高英语的应用能力打下一定的基础。

《基本要求》将专科英语课程教学分为两个阶段：第一阶段应重视语言共核教学，培养基本的语言技能，第二阶段应结合专业，强调基本的阅读和翻译技能在本专业的实际应用。

为了体现这一教学安排，本套教材也分成两个阶段。

第一阶段包括《综合教程》和《泛读教程》各3册，第二阶段包括《实用业务英语》1册。

《综合教程》和《泛读教程》是《实用业务英语》的基础，并在教学内容、技能培养方面逐渐向《实用业务英语》过渡，《实用业务英语》是《综合教程》和《泛读教程》的总结和提高，并结合学生毕业后使用英语的需要，侧重于实用文体的阅读和翻译、实用英语口语的训练和实用文体模拟写作方面的训练。

## 章节摘录

"High tech" and "state of the art" are two expressions to describe very modern technology. High tech is just a shorter way of saying high technology, and high technology describes any invention, system or device that uses the newest ideas or discoveries of science and engineering. What is high tech ?

A computer is high tech. So is a communication satellite. A modern manufacturing system is surely high tech. The opposite of high tech is low tech. As you might imagine, low tech describes technology that is traditional, simple and easy to operate. A wooden plow pulled by oxen is low tech. So is a hand pump. High tech became a popular expression in the United States during the early 1980s. Because of the improvements in technology people could buy many new kinds of products in American stores. Products like small powerful home computers, low cost microwave ovens for cooking food quickly, modern music systems that use a digital electronic system for recording sounds. The companies that make these products were proud of their goods. They wanted everyone to know that their products were as modern as possible. So in all kinds of advertising, companies described their products as high tech. Soon everyone knew the expression. State of the art is something that is as modern as possible. It is a product that is based on the very latest methods and technology. Something that is state of the art is the newest possible design or product of business or industry. A state-of-the-art television set, for example, uses the most modern electronic design and parts. It is the best that one can buy.
