章节摘录

版权页：插图： In the late afternoon, it was time to go home, and they all met together on the bridge. They were very pleased with themselves because each man had caught one or two large fish. They walked back up the road to the village singing loudly: 'One man went to fish, Went to fish a river. 'One man went to fish, Went to fish a river. The song went on for verse after verse: '... Six men, five men, four men, three men, two men, one man and his dog, Went to fish a river.' verse after verse 一句接一句 They had just begun the verse starting, ' Seven men went to fish'..., when Tom called, " Stop !

That reminds me. Have the seven of us all come back ?

" he asked. " We have been fishing in that dangerous river all day Perhaps one of us fell in, and no one noticed ?

" dangerous 危险的 fell in 跌入 (fell 是 fall 的过去式) "Tom is right," said Matt. " We must check to see that there are seven of us. Stand in a row, my friends. I will count you to make sure that everyone has come back from the river." stand in a row 站成一排 count 数 Matt counted everyone in the row. "Tom-one !

Harry-two !

Jack-three !

Will-four !

Ned-five !

Sam-six !

Only six !

" he said. (But he had forgotten to count himself.) " One of us is missing. He may be drowned. How terrible !

" said Matt. " That can't be right," said Harry "I will count again to make sure. One, two, three, four, five, six !

" (But just as Matt had done, Harry forgot to count himself.) " Only six !

" cried Harry "Oh, how dreadful !

Why did we risk our lives down by the dangerous river ?

" dreadful 可怕的 risk 冒险 "I can't believe it," said Jack, and he counted his friends, as well. Once again, he forgot to count himself. " Only six !

" cried Jack. "It must be true. Oh, what an awful thing to happen !

" When Will had a turn at counting, he got the same answer. " One of us must have fallen in and been drowned !

"
