

<<生态学>>

图书基本信息

书名：<<生态学>>

13位ISBN编号：9787040321845

10位ISBN编号：704032184X

出版时间：2011-5

作者：莫里斯(Manuel C.Molles)

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

<<生态学>>

内容概要

《生态学(第5版)(影印版)》每一章既涵盖了基本内容,又反映了相关领域的最新进展。全书有大量有助于正确理解相关内容的图表和照片。

作者简介

莫里斯 (Molles M.C) . is an emeritus Professor of Biology at the University of New Mexico, where he has been a member of the faculty and curator in the Museum of Southwestern Biology since 1975 and where he continues to teach ecology and advise graduate students. He received his B.S. from Humboldt State University and his Ph.D. from the Department of Ecology and Evolutionary Biology at the University of Arizona. Seeking to broaden his geographic perspective, he has taught and conducted ecological research in Latin America, the Caribbean, and Europe. He was awarded a Fulbright Research Fellowship to conduct research on river ecology in Portugal and has held visiting professor appointments in the Department of Zoology at the University of Coimbra, Portugal, in the Laboratory of Hydrology at the Polytechnic University of Madrid, Spain, and at the University of Montana's Flathead Lake Biological Station.

Originally trained as a marine ecologist and fisheries biologist, the author has worked mainly on river and riparian ecology at the University of New Mexico. His research has covered a wide range of ecological levels, including behavioral ecology, population biology, community ecology, ecosystem ecology, biogeography of stream insects, and the influence of a large-scale climate system (El Nifio) on the dynamics of southwestern river and riparian ecosystems. His current research concerns the influence of climate change and climatic variability on the dynamics of populations and communities along steep gradients of temperature and moisture in the mountains of the Southwest. Throughout his career, Dr. Molles has attempted to combine research, teaching, and service, involving undergraduate as well as graduate students in his ongoing projects. At the University of New Mexico, he has taught a broad range of lower division, upper division, and graduate courses, including Principles of Biology, Evolution and Ecology, Stream Ecology, Limnology and Oceanography, Marine Biology, and Community and Ecosystem Ecology. He has taught courses in Global Change and River Ecology at the University of Coimbra, Portugal, and General Ecology and Groundwater and Riparian Ecology at the Flathead Lake Biological Station. Dr. Manuel Molles was named Teacher of the Year by the University of New Mexico for 1995-96 and Potter Chair in Plant Ecology in 2000.

书籍目录

目录

- 1 Introduction to Ecology: Historical Foundations and Developing Frontiers
- Section1 Natural History and Evolution
- 2 Life on Land 9
- 3 Life in Water 40
- 4 Population Genetics and Natural Selection 70
- Section 2 Adaptations to the Environment 90
- 5 Temperature Relations 90
- 6 Water Relations 114
- 7 Energy and Nutrient Relations 135
- 8 Social Relations 156
- Section 3 Population Ecology 181
- 9 Population Distribution and Abundance 181
- 10 Population Dynamics 196
- 11 Population Growth 216
- 12 Life Histories 227
- Section 4 Interactions 248
- 13 Competition 248
- 14 Exploitative Interactions: Predation, Herbivory, Parasitism, and Disease 268
- 15 Mutualism 290
- Section 5 Communities and Ecosystems 307
- 16 Species Abundance and Diversity 307
- 17 Species Interactions and Community Structure 325
- 18 Primary Production and Energy Flow 344
- 19 Nutrient Cycling and Retention 361
- 20 Succession and Stability 381
- Section 6 Large Scale Ecology 403
- 21 Landscape Ecology 403
- 22 Geographic Ecology 426
- 23 Global Ecology 444
- Appendix Statistical Tables 464
