<<计算机专业英语>>

内容概要

本书是为开设计算机专业英语课程的普通高校和广大有志于自学计算机英语的人员而编写的教材。全书共15章，分为两大部分：一部分是传统的计算机科学技术领域，包括计算机系统、操作系统、数据库、数据结构、计算机网络等内容；另一部分是新兴的领域，包括信息安全与技术、地理信息系统、图像处理和电子商务等内容。

每章包括两篇正文和两篇阅读材料以及练习。

每篇正文后附有单词注解和难句翻译。

正文属于精读、精讲的内容。

阅读材料主要侧重相应领域的最新发展动态，选文主要来源于近三年的外文期刊和有关网站，目的是开拓学生的专业视野，激发学生的学习和阅读兴趣。

本书内容新颖，选文来源宽泛，注重保持选文内容的原汁原味。

本书可以作为计算机类专业本科或者专科的专业英语教材，也可以作为信息类专业的选修教材，还可供参加计算机水平考试的考生、IT行业的工程技术人员学习参考。

书籍目录

Foreword
Chapter One The Fundamental of Computers Unit 1 Computer Types Unit 2 The Year 2038 Problem
Reading Material 1 History of Electronic Digital Computers Reading Material 2 Cable vs. DSL
Chapter Two Computer Architecture Unit 1 Computer Motherboard Unit 2 Memory Hierarchy in Cache-based Systems
Reading Material 1 Multi-core (computing) Reading Material 2 12C
Chapter Three Data Structure Unit 1
Balanced Tree Data Structures Unit 2 Quicksort Reading Material 1 Linked List Reading Material 2 New
Algorithms for Maintaining All-pairs Shortest Paths
Chapter Four Operating System Unit 1 Operating System
Structure Unit 2 Linux Reading Material 1 Porting Window CE Operating System to Broadband Enabled STB
Devices Reading Material 2 Windows Vista
Chapter Five Programming Languages Unit 1 History of
Programming Languages Unit 2 Object-oriented Programming Reading Material 1 Introduction to the C#
Language and the NET Framework Reading Material 2 Introduction to Python
Chapter Six Database Systems
Unit 1 Introduction to Database Systems Unit 2 Distributed Database Reading Material 1 SQL Server Reading
Material 2 Oracle Database
Chapter Seven Computer Network Unit 1 Network Topology Unit 2 Sliding Window
Protocols Reading Material 1 IPv6 Reading Material 2 Router
Chapter Eight Internet Unit 1 A Basic Guide to the
Internet Unit 2 DNS (Domain Name System) Reading Material 1 HTTP Cookies Reading Material 2 What Is
Web 2.0
Chapter Nine Geographic Information System Unit 1 GIS Introduction Unit 2 GIS Data Reading
Material 1 Application of GIS Techniques in Hong Kong's Population Census Reading Material 2 Use of
ARC/INFO in the National Water-quality Assessment Program--South Platte River Basin Study
Chapter Ten Information Security Unit 1 How to Implement Trusted Computing Unit 2 Computer Virus Reading Material 1
A National Cyberspace Security Response System Reading Material 2 Carnivorous
Chapter Eleven Information
Security Technologies Unit 1 Intrusion Detection Systems and Intrusion Response Mechanism Unit 2 An
Introduction to Information Security Reading Material 1 Introduction to Firewall Reading Material 2 Internet
Security Architecture
Chapter Twelve Digital Image Processing Unit 1 A Basic Introduction to Image Processing
Unit 2 Adult Image Detection Using Statistical Model and Neutral Network Reading Material 1 An Introduction
to Machine Vision Reading Material 2 An Overview of JPEG-2000
Chapter Thirteen Management Information
System Unit 1 Data Warehouse Unit 2 Data Mining Reading Material 1 Oracle Data Mining Reading Material 2
Steps Involved in Building a Data Warehouse
Chapter Fourteen E-Commerce Unit 1 Electronic Commerce Unit
2 Taking Payments Online: The 5 Elements of E-Commerce Reading Material 1 Seven Practical Trends in B2B
Marketing Reading Material 2 Introduction to How PayPal Works
Chapter Fifteen The Future of Information
Technology Unit 1 Automated Intrusion Response Unit 2 Native XML Databases Reading Material 1 3G
Technology Reading Material 2 Voice over IP
