

<<建筑给水排水设计规范>>

图书基本信息

书名：<<建筑给水排水设计规范>>

13位ISBN编号：9787112094455

10位ISBN编号：7112094453

出版时间：2007-8

出版时间：中国建筑工业出版社

作者：中国工程建设标准化协会组织 翻译

页数：184

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

<<建筑给水排水设计规范>>

内容概要

《中华人民共和国国家标准：建筑给水排水设计规划(GB50015-2003英文版)》为英文版，为中华人民共和国国家标准之一。

《中华人民共和国国家标准：建筑给水排水设计规划(GB50015-2003英文版)》由中国工程建设标准化协会组织所著。

<<建筑给水排水设计规范>>

书籍目录

1 General Principles
 2 Terms and Symbols 2.1 Terms 2.2 Symbols
 3 Water Supply 3.1 Rated water consumption and water pressure 3.2 Water quality and water quality pollution protection 3.3 System selection 3.4 Pipe material, fittings and water meter 3.5 Piping layout and pipe laying 3.6 Design flow and hydraulic calculation of pipe 3.7 Water tower, Water tank, Reservoir 3.8 Pressurizing equipment, pump house 3.9 Swimming pool and aquatic recreation pool 3.10 Cooling tower and circulation cooling water 3.11 Waterscape
 4 Water Drainage 4.1 Selection of drainage system 4.2 Plumbing fixture and water lock 4.3 Pipe location and pipelining 4.4 Calculation of drainage pipe 4.5 Pipe material, fittings and inspection well 4.6 Vent pipe 4.7 Sewage pump and catch pit 4.8 Small domestic soil disposal 4.9 Rainwater
 5 Hot water and drinking water supply 5.1 Rated consumption, temperature and quality of hot water 5.2 Selection of hot water supply system 5.3 Calculation of heat consumption, hot water quantity and heating equipment hot supply 5.4 Water heating and storage 5.5 Calculation of network 5.6 Pipe, fitting and pipeline laying 5.7 Potable water supply
 Appendix A Residential district underground pipeline (structure) minimum net clearance between lines
 Appendix B Valves and screw fittings resistance loss converted length of compensation
 Appendix C Water supply pipe section Plumbing fixtures water supply equivalent simultaneously outflow probability calculated equation, a c coefficient values table
 Appendix D Water supply pipe section designed second flow calculation table
 Appendix E Fine drinking water number of taps simultaneously use in the calculated pipe section
 Explanation of wording in this Code
