

<<勘查工程专业英语>>

图书基本信息

书名：<<勘查工程专业英语>>

13位ISBN编号：9787116068513

10位ISBN编号：7116068511

出版时间：2010-09-01

出版时间：地质出版社

作者：马孝春

页数：216

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

<<勘查工程专业英语>>

内容概要

《勘查工程专业英语》共有15个单元，内容涉及地质、现场勘察、土工测试、钻探工程、基础工程、注浆工程、边坡治理工程、石油钻井、非开挖工程等方面的英语阅读材料。文后附有详细的同类扩展词汇，语言规范、信息量大。

《勘查工程专业英语》可作为勘查工程、土木工程、岩土工程、地质工程等专业的本专科生、研究生的专业配套教材，以及上述专业领域学生出国深造前应知必会的学习材料，也是从事涉外工程翻译人员的重要参考资料。

书籍目录

Unit 1 Chemical and Physical Properties of Rocks 1.1 Composition of Rocks 1.2 Geological Classification of Rocks

Unit 2 Soil Composition and Classification 2. 1 Soil Composition 2. 1. 1 Weight-volume Relationships 2. 1.2 Relative Density 2. 1.3 Particle Size 2. 1.4 Clays 2. 1.5 Plasticity and the Atterberg Limits 2. 2 Soil Classification

Unit 3 Influence of Groundwater to Engineering 3.1 Pavements 3.2 Slopes

Unit 4 Site Investigation 4. 1 Background Literature Search 4.2 Field Reconnaissance 4. 3 Subsurface Exploration and Sampling 4. 4 Exploratory Borings 4.5 Soil Sampling 4. 6 Groundwater Monitoring 4. 7 Exploratory Trenches

Unit 5 Laboratory Testing of Soils 5.1 Introduction 5.2 Common Laboratory Tests 5.2. 1 Index Tests 5.2. 2 Oedometer 5.2. 3 Shear Strength Tests 5.2.4 Permeability

Unit 6 In-situ Testing 6. 1 Standard Penetration Test (SPT) 6. 2 Cone Penetration Test (CPT) 6. 3 Vane Shear Test (VST) 6.4 Pressuremeter Test (PMT) 6.5 Dilatometer Test (DMT) 6.6 Becker Penetration Test 6. 7 Comparison of In-situ Test Methods

Unit 7 Drilling Technology 7. 1 Classification of Types of Drilling 7.2 The Connection to the Bit 7.2. 1 Transmission of Power 7.2. 2 Control of the Bit 7.2. 3 Conduct of Fluid 7.2. 4 Conduct of Cuttings 7.2. 5 Drill String Flexibility 7.2. 6 Tasks Performed Down the Hole 7.2. 7 The Drill String Gives the Clues

7.3 Pipes and Pipe Threads 7. 3. 1 Tubing for Drill Pipe 7. 3.2 Tubing for Casing 7. 3.3 Threads 7.3.4 Rotary Tool Joints 7.3.5 Drill Pipe Failure 7.3.6 Correct Make-up Torque 7. 3.7 Caring for Pipes and Threads

7.4 Cable Tool and Hydraulic Drilling 7.4. 1 Features of Cable Tool Percussion 7.4. 2 Cable Tool Techniques 7.4. 3 Other Cable Types 7.4.4 Hydraulic Types of Drilling 7.4. 5 Suitability of Hydraulic Drilling 7.4. 6 Essential Cable Tool Drill String Components

7.5 Auger Drilling 7.5.1 Types of Auger Drilling 7.5.2 Applications of Auger Drills

7.6 Rotary and Down-hole Hammer Drilling 7.6. 1 What is Rotary Drilling ? 7.6. 2 Forms of Rotary Drive 7.6. 3 Methods of Feeding the Bit 7.6.4 Rotary Down-hole Hammer Drilling 7.6. 5 Rotary Fluid Circulation 7. 6. 6 Reverse Circulation 7.6. 7 Types and Features of Rotary Rigs

Unit 8 Shallow Foundations Unit 9 Deep Foundations Unit 10 Soil Improvements Unit 11 Grouting Engineering Unit 12 Analyses of Bearing Capacity and Settlement of Structures Unit 13 Retaining Structures Unit 14 Petroleum Drilling Unit 15 Trenchless Engineering

附录A Introduction to CUGB 附录B 希腊字母 附录C 符号的读法 参考文献
