

<<医学遗传学>>

图书基本信息

书名：<<医学遗传学>>

13位ISBN编号：9787117106238

10位ISBN编号：7117106239

出版时间：2009-1

出版时间：人民卫生出版社

作者：陈竺 主编

页数：277

字数：464000

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

<<医学遗传学>>

内容概要

2001年8月,教育部制定并下发《关于加强高等学校本科教学工作提高教学质量的若干意见》(教高[2001]4号),指出:按照“教育面向现代化、面向世界、面向未来”的要求,为适应经济全球化和科技革命的挑战,本科教育要创造条件使用英语等外语进行公共课和专业课教学。

对高新技术领域的生物技术、信息技术等专业,更要先行一步,力争三年内,外语教学课程达到所开课程的5%~10%。

2005年1月,又印发了《关于进一步加强高等学校本科教学工作的若干意见》(教高[2005]1号),指出:高等学校要全面推广和使用大学英语教学改革的成果,要提高双语教学课程的质量,继续扩大双语教学课程的数量。

要加强教材建设,确保高质量教材进课堂。

双语教育是提高学生英语水平的一个途径,尽管我国高等医学院校双语教学探索已有若干年,但教材的跟进始终显得滞后。

没有合适的教材是目前双语教学面临的困难之一。

2006年初,为推进双语教学的发展,经全国高等医药教材建设研究会和卫生部教材办公室审议,决定根据国家、地方和学生未来发展的需要,组织国内专家结合双语教学的经验,编写出版一套适应当前双语教学现状的教材。

书籍目录

Chapter 1 Genetics in Medicine GENETIC BASIS OF HEALTH AND DISEASES BRIEF HISTORY OF MEDICAL GENETICS CLASSIFICATION OF GENETIC DISEASES TASKS AND PERSPECTIVES OF MEDICAL GENETICS AND GENETIC MEDICINEChapter 2 From DNA to Human Genome DNA STRUCTURE AND FUNCTION HUMAN GENOMICSChapter 3 Medical Cytogenetics THE BASIC CHARACTERISTICS OF HUMAN CHROMOSOME CHROMOSOME ABNORMALITIES CHROMOSOME DISEASESChapter 4 Basics of Population and Epidemiological Genetics EQUILIBRIUM IN GENE AND GENOTYPIC FREQUENCIES IN POPULATIONS: HARDY-WEINBERG LAW APPLICATIONS OF HARDY-WEINBERG LAW FACTORS AFFECTING POPULATION GENE FREQUENCIES: MUTATION AND SELECTION THE FACTORS CAUSING CHANGE IN POPULATION GENE FREQUENCIES: GENETIC DRIFT AND MIGRATION INBREEDING AND THE COEFFICIENT OF INBREEDING MISLEADING OF EUGENICS GENETIC EPIDEMIOLOGYChapter 5 Single Gene Disorders AUTOSOMAL DOMINANT INHERITANCE AUTOSOMAL RECESSIVE INHERITANCE X-LINKED INHERITANCEChapter 6 Biochemical Inherited Disorders HEMOGLOBINOPATHIES AND THALASSEMIA HEMOPHILIA ENZYME PROTEIN DISEASE RECEPTOR PROTEIN DISEASE MEMBRANE TRANSPORT APOPROTEIN DISEASEChapter 7 Mitochondrial Inherited Disorders CHARACTERISTICS OF MITOCHONDRIAL COMPOSITION AND INHERITANCE MITOCHONDRIAL DNA MUTATIONS AND COMMON MITOCHONDRIAL DISEASESChapter 8 Multifactorial Disorders POLYGENES AND RELATIONSHIP THE IDENTIFICATION OF GENETIC FACTORS IN COMMON COMPLEX DISEASE IMPLICATIONS OF MULTIFACTORIAL INHERITANCEChapter 9 Tumor Genetics CHROMOSOMAL ABERRATION AND TUMORS ONCOGENE TUMOR SUPPRESSOR GENE GENETIC MECHANISMS OF TUMORIGENESIS HEREDITARY MALIGNANT TUMORSChapter 10 Clinical Genetics DIAGNOSIS OF GENETIC DISORDERS THERAPY OF HEREDITARY DISEASE PREVENTION OF GENETIC DISORDERSChapter 11 Epigenetics and Human Diseases THE MECHANISM OF EPIGENETIC MODIFICATION EPIGENETICS AND DISEASE EPIGENETICS AND CANCER EPIGENETICS AND AGING BIOLOGICAL IMPLICATION OF EPIGENETICSChapter 12 Ethics in Medical Genetics GENETIC SERVICE ETHICAL ISSUES IN GENETIC COUNSELING ETHICAL ISSUES IN GENETIC TESTING ETHICAL PROBLEMS IN GENE THERAPY ETHICAL ISSUES ON ASSISTED REPRODUCTIONIndex
