<<神的世界>>

内容概要

Take a journey in this book to a land that is both stunning and subtle, back to the places where tales of magic were born. In the Realm of the Gods is the first book to tell China's rich folk traditions and tales of the natural and supernatural in a unique way--by geographic region. The result is a Grand Tour through China. The stories of China's ancient capitals, its sacred mountains, rivers, trade routes and caravans, lush gardens, and mysterious grottoes, all serve as the setting for a magical journey through all points on the compass. Here are the stories of kings, ghosts, spirits, warriors, scholars, and magical realms in a landscape potent with history. In the Realm of the Gods also goes where no other book on China's myths and legends has gone before by featuring stunning photography from some of China's most critically acclaimed landscape photographers. Their studies of abandoned villas, vertiginous cliffs, night-time pathways and temples at dusk give us an unprecedented visual setting of the tales themselves, showing us where mortals, demons and gods have for centuries belonged.
