<<2008年国际电子商务、工程及 >

图书基本信息

书名：<<2008年国际电子商务、工程及科学领域的分布式计算和应>>

13位ISBN编号：9787121070181

10位ISBN编号：7121070189

出版时间：2008-7

出版时间：须文波 电子工业出版社 (2008-07出版)

作者：须文波 编

前言

The series of meetings, International Symposium on Distributed Computing and Applications to Business, Engineering and Science(DCABES), is now becoming an important international event on various applications andthe related computing environments of distributed and grid computing. The first meeting was held at WuhanUniversity of Technology, Wuhan, and the second meeting was held at Southern Yangtze University, Wuxi, the thirdmeeting was held at Wuhan University of Technology, Wuhan, the fourth meeting was held at Greenwich University, Greenwich, the fifth was organized by Southern Yangtze University and Zhejiang GongShang University and held atHangzhou, and the sixth was organized by Wuhan University of Technology and held at Yichang. The seventhmeeting will be organized by Jiangnan University and held at Dalian. The conference themes include not only itstraditional theme such as parallel and distributed computing, but also intelligent computing and other topics that willbe described as follows. It was my pleasure that the DCABES2008 conference had received a great number of papers submitted cover awide range of topics, such as Parallel／Distributed Computing, Grid Infrastructure and Applications, Image Processing, Network Technology and Information Security, E-Commerce and E-Business, Intelligent Computing, InformationProcessing, Information Management System, and SO forth.

内容概要

随着计算机技术的不断发展，分布式并行以及高性能计算对科学、工程技术、经济管理等领域的重要性日益突出。
一年一度的DCABES国际会议已经成为该领域有影响的学术会议。
2008年DCABES国际会议论文集共收录近300篇学术论文，内容涉及：分布式并行计算、网格计算、数值计算、网络技术与信息安全、信息处理、信息管理系统、电子商务、图像处理、Web技术、无线传感技术、智能计算等。
对相关研究领域中的本科高中级学生、研究生、教学及科研人员均有较大的帮助。
