章节摘录

Paragraph 2 Londons weather is very strange. It can rain several times a day ; each time the rain may come suddenly after the sun is shining brightly. The air is damp and chill right through July. On one March afternoon on Hampton Heath last year it rained three times , there was one hail storm , and the sun shone brilliantly-all this within two hours time. It is not unusual to see men and women rushing down the street on a sunny morning with umbrellas on their arms. No one knows what the next few moments will bring. Paragraph

3 It is good for students to try some part-time jobs while studying at college. First , by doing part-time jobs , a student can learn how to be responsible. As an employee , a student has to go to work on time. Second , a student will get to know the value of money through part-time jobs. Many students depend on their parents for money , but they do not know how hard their parents have worked to support their study. When a student tries to make money by himself , he will realize that "money doesnt grow on trees. " Third , a part-time job enables students to learn how to work together with others. Usually , a job requires the efforts of different members of a working team. In the team , everyone should learn to be helpful , to care for others and be cared for by others. Working as a member of a team will build strong character in students , and the experiences will surely help them a great deal after their graduation and benefit them throughout their lives.
