前言

为适应目前高职高专英语教学的迫切需要,依据教育部高教司颁发的《高职高专教育英语课程教学基本要求》(试行)(以下简称为《基本要求》),我们组织专家学者和一线教师编写了这套《新实用英语视听说教程》。

教程共上下两册,供高职高专非英语专业的学生使用。

本书为学生用书下册。

《基本要求》对听力的要求是:学生能听懂在日常和涉外业务活动中使用的结构简单、发音清楚、语速较慢(每分钟120词左右)的英语对话和陈述,并对这些内容的理解基本正确。

对口语的要求是学生能用英语进行一般的课堂交际,并能在日常和涉外业务活动中进行简单的交流。

本教程在设计和编写时尽可能地满足上述要求。

教材的编写力求体现教学目标、教学理念、教学原则和教学方法,达到教师和学生使用起来满意等目标(刘润清,2003)。

教材认真设计每一单元的题材、功能、结构和任务,力求能够达到培养学生语言技能、语言知识、情感态度、学习策略和文化意识的目的(梅德明,2008)。

教材编写遵循“实用为主,够用为度”的基本原则,突出了语言的交际功能,充分体现了中国外语教学的特色,注重内容的实用性和适用性。

教材还以第二语言习得最新理论为依据,注重任务和活动的策略性和开放性。

本教程由杨登新、袁敬之和孙晓艳担任总主编,由复旦大学翟象俊教授主审。

参加下册编写的有辛恺(主编)、廉德刚(主编)、马德玲(副主编)、李晓冉(副主编)、朱庆妮(副主编)、李小敬(副主编)和李君玲、任艳娜、刘苹、姚海涛、李瑞红、徐斌、郝伟、朱静静等。

章节摘录

Computers have been used in teaching for more than 20 years. But a new book says that only now are they changing education. And it predicts that a lot more is about to happen. The book is called *Disrupting Class : How Disruptive Innovation Will Change the Way the World Learns*. "Disruptive Innovation" is a theory developed by lead author Clayton Christensen , a professor at Harvard Business School. He says organizations almost always use new , creative technology only to continue what they already do. New technology should change organizations , he says , disrupt them in a good way. They should use the technology to do things differently- for example , to serve more needs. The new book says the needed disruptive force in education is computer-based learning. Michael Horn , another author of *Disrupting Class* , told us about a Boston public school that he had visited. Every student at Lilla G. Frederick Middle School in Dorchester , Massachusetts , has a laptop computer. One class was learning about storms. Michael Horn says the laptops made it possible to truly individualize the lessons , to divide materials by ability level and learning style. At the end , the students all took part in a discussion led by the teacher. Computer-based learning offers a way for students to take advanced courses not offered at their school , or to retake classes they failed. It also serves those who cannot physically attend school , and students who receive home-schooling or need tutoring.
