## <<普通生物学专业英语>>

### 内容概要

《普通生物学专业英语》是作者根据生物学双语教学实践与科研中查阅、撰写生物学专业英语文章的经验体会写成的一部简明生物学专业英语书，包括生物专业知识与技术、科技英语翻译技巧和科技论文写作技巧三章内容。

《普通生物学专业英语》体现了生物学基础知识和新技术的统一性，可读性、实用性和指导性，突出科技英语写作特点，注重中英文翻译技巧与应用，加强口语表达技巧训练，图文并茂，可作为高等院校本科生的生物学专业、生物技术专业和水产养殖专业等专业的学生学习使用，可供生物学相关专业教师、研究生、科研与管理人员参考使用。

## 书籍目录

Preface  
 Chapter 1 Reading Materials of Life Sciences  
 Unit 1 Introduction to Biology  
 1.1 The Significance of Biology in Human Life  
 1.2 The History of Biology  
 1.3 The Characteristics of Living Things  
 1.4 The Importance of Biology  
 1.5 Future Direction in Biology  
 1.6 Famous Scientists in Biology  
 Unit 2 Biomacromolecules  
 2.1 Introduction to Biomacromolecules  
 2.2 Four Classes of Important Biomacromolecules  
 Unit 3 Cell Structures and Functions  
 3.1 Introduction to Cells and Cell Biology  
 3.2 Basic Cell Structures  
 3.3 Several Important Cell Structures and Their Functions  
 Unit 4 Cell Division, Culture and Animal Cloning  
 4.1 Cell Division and Its Functions  
 4.2 Cell Culture and Its Applications  
 4.3 Cloning  
 Unit 5 Transfer of Genetic Information and Its Regulation  
 5.1 The Central Dogma  
 5.2 DNA Replication  
 5.3 DNA Transcription  
 5.4 Translation  
 5.5 Regulation of Gene Expression  
 Unit 6 Genetic Laws and Disorders  
 6.1 Laws of Genetics  
 6.2 Genetic Disorders  
 Unit 7 Microbes and Their Uses  
 7.1 Brief Introduction to Microbes and Microbiology  
 7.2 Important Microbes  
 7.3 Microbial Uses  
 Unit 8 Plants and Their Uses  
 8.1 Plants and Botany  
 8.2 Main Types of Green Plants and Their Characteristics  
 8.3 Uses of Plants  
 Unit 9 Animals and Their Uses  
 9.1 Animals and Zoology  
 9.2 Animal Structures  
 9.3 Uses of Animals  
 Unit 10 GMF and Biosafety  
 10.1 Biotechnology and Its Main Types  
 10.2 Genetically Modified Organism (GMO)  
 10.3 Genetically Modified Foods (GMF)  
 10.4 GMF Biosafety  
 Unit 11 Biodiversity and Its Conservation  
 11.1 Ecology, Its Branches and Applications  
 11.2 Biodiversity  
 11.3 Human Benefits from Biodiversity  
 11.4 Biodiversity Crisis  
 11.5 Biodiversity Conservation and Sustainable Development  
 Unit 12 Technologies and Applications of Aquaculture  
 12.1 Aquaculture  
 12.2 Fish Aquaculture  
 12.3 Shrimp Farming  
 12.4 Turtle Farming  
 12.5 Oyster Farming  
 12.6 Algaculture  
 Unit 13 Bioinformatics and Genomics  
 13.1 Bioinformatics  
 13.2 Genomics and Its Main Branches  
 Chapter 2 Translation Techniques of English for Science and Technology (EST)  
 Unit 1 Writing Rules of English Articles for Science and Technology and Examples  
 1.1 Characteristics of EST Words  
 1.2 Characteristics of EST Sentences  
 1.3 Characteristics of EST Discourses  
 Unit 2 General Idioms and Examples  
 2.1 Words as Idioms  
 2.2 Phrases as Idioms  
 2.3 Sentence Patterns as Idioms  
 Unit 3 The Translation Rules and Examples of English Articles for Science and Technology  
 3.1 Translate English into Chinese  
 3.2 Translate Chinese into English  
 Chapter 3 Writing Techniques of English Articles for Science and Technology  
 Unit 1 English Articles for Science and Technology and Their Types  
 1.1 English Articles for Science and Technology  
 1.2 The Types of English Articles for Science and Technology  
 Unit 2 The Characteristics of English Articles for Science and Technology  
 2.1 Technicality  
 2.2 Creativity  
 2.3 Scientificness  
 2.4 Accuracy  
 2.5 Popularity and Normalization  
 2.6 Objectivity  
 2.7 Figures and Tables, Formulae and Signs  
 Unit 3 Basic Formats of English Articles for Science and Technology  
 3.1 Basic Formats of English Articles for Bachelor  
 3.2 Basic Formats of Research Paper  
 Unit 4 Writing Procedures and Technologies of English Articles for Science and Technology  
 4.1 Selected Topic and Title of EST  
 4.2 Preparation of EST  
 4.3 Writing of EST  
 4.4 Example Analysis  
 Keys  
 Appendix  
 References
