章节摘录

Music is an international language. Popular music in America is what every student likes. Students carry MP3s with earphones and listen to music before class, after class, and at lunch. Students with cars buy large speakers and play music loudly as they drive on the street. Adult drivers listen to music on the car radio as they drive to work. They also listen to the news about sports, weather, politics, and activities of American people. Most of the radio broadcasts are music. Pop music singers make much money. They make CDs which radio stations use in every state. Once the popular singer is heard all over the country, young people will buy his or her CDs. Some of the money from these CDs comes to the singer. Wherever the singer goes, all the young people want to meet him or her. Now the singer has become a national star. There are other kinds of music that are important to Americans. One is called folk music. It has stories about common life of Americans. Another is called western or country music. This was started by cowboys who would sing at night to the cows they were watching. Today, any music about country life and the love between a country boy and his girl is called western or country music. Serious music for the concert halls is called classical music. Music for instruments is called orchestra music, such as the symphonies of Beethoven. 81. What kind of music do students like in America ?
