

## <<石油工程专业英语>>

### 图书基本信息

书名 : <<石油工程专业英语>>

13位ISBN编号 : 9787502172817

10位ISBN编号 : 7502172815

出版时间 : 2009-8

出版时间 : 石油工业出版社

作者 : 张继红 , 等 编

页数 : 265

版权说明 : 本站所提供之PDF图书仅提供预览和简介,请支持正版图书。

## <<石油工程专业英语>>

### 内容概要

《石油工程专业英语》涵盖了油层物理、渗流力学、油藏工程、采油工程、钻井、完井、测井、增产增注、提高采收率、石油与环境保护等内容。

全书按石油工程专业学科内容进行编排，同时插入了大量的图片和图表，克服了传统教材的呆板。该书题材广泛、内容丰富、重点突出、难度适中，具有系统性和可读性。

《石油工程专业英语》可作为石油高等院校石油工程专业的教材，也可作为现场技术人员的英语培训和职称考试参考用书。

### 书籍目录

Chapter 1 The History of Petroleum Industry  
1.1 The Initial Realization of Oil  
1.2 The Search for Light  
1.3 The Birth of the Industry  
1.4 Spindletop  
1.5 The Modern Progress of Petroleum Industry  
New Words Notes  
Chapter 2 The Physical Characteristics of Reservoir  
2.1 Properties of Reservoir Rocks  
2.2 Reservoir Fluids  
2.3 Reservoir Fluid Behavior  
2.4 Fluid Flow in the Reservoir  
New Words Notes  
Chapter 3 Basic Drilling Technology  
3.1 History and Drilling Environments  
3.2 Rotary Drilling Process  
3.3 The Main Component Parts of a Rotary Rig  
New Words Notes  
Chapter 4 Primary Cementing  
4.1 Cementing Materials  
4.2 Cement Additives  
4.3 Cement Bonding  
4.4 Flow Properties of Primary Cements  
4.5 Displacement Mechanics  
4.6 Primary Cementing Practices  
New Words Notes  
Chapter 5 Logging  
5.1 Why Run Logs  
5.2 Logging Car, Cable and General Mounting  
5.3 Electrical Logging  
5.4 Nuclear Logging  
5.5 Acoustic Log  
5.6 Mud Logging  
5.7 Some Other Types of Logs  
5.8 Computer Generated Logs  
New Words Notes  
Chapter 6 Well Completions  
6.1 Completion Methods  
6.2 Completion Interval Selection  
6.3 Types of Completion Arrangements  
6.4 Well Completion Design  
New Words Notes  
Chapter 7 Production Technology  
7.1 Inflow Performance  
7.2 Wellbore Flow Performance  
7.3 Artificial Lift  
New Words Notes  
Chapter 8 Stimulation  
8.1 Acidizing  
8.2 Hydraulic Fracturing  
8.3 Physical Methods to Stimulation  
New Words Notes  
Chapter 9 Improved Oil Recovery  
9.1 Introduction  
9.2 Water Flooding and Recovery Efficiency  
9.3 Chemical Recovery Processes  
9.4 Thermal Recovery Processes  
9.5 Miscible Recovery Processes  
9.6 Microbial EOR  
New Words Notes  
Chapter 10 Reservoir Management  
10.1 Natural Drive Mechanisms  
10.2 Flood Patterns  
10.3 Material Balance  
10.4 Reservoir Economics  
10.5 Simulation  
New Words Notes  
Chapter 11 The Petroleum Industry and the Environment  
11.1 Environmental Impact of the Petroleum Industry  
11.2 Environmental Forces Changing the Petroleum Industry situation  
11.3 Waste Management and Minimization  
New Words Notes  
References
