内容概要

Experience learning made easy--and quickly teach yourself how to build custom sites and solutions with SharePoint Designer 2007. With Step by Step, you set the pace--building and practicing the skills you need, just when you need them!

- Master the tools for building and editing pages visually--no code
- Use master pages and CSS to control how sites look and work
- Connect to lists, libraries, XML data, and RSS feeds
- Add interactive and collaborative features with Web Parts and controls
- Create workflows and other business-process applications
- Manage user settings, accessibility, and site maintenance。
