章节摘录

193. The Sheep and the Money Once a king said to his minister (大臣), " You must try to have two thousand sheep sold in the market and bring back all the sheep and the money you get . Do remember to bring back all the sheep !

" Although the minister (大臣) promised , he was at a loss (不知所措) . He said to himself , " If the sheep are sold I would not be able to bring back the sheep . If I bring the sheep back . I would not be able to give the king the money . " He thought harder and had an idea . The next evening , the minister came back from the market to see the king with the non-ey and all the sheep . The king was very satisfied . Now , do you know what was the clever idea of the minister ?

In fact , the minister drove the sheep to the market , then he had the wool (羊毛) out from the sheep . He sold the wool in his market . After that he came back with the money and all his sheep . How did the minister get the money without selling the sheep ?

A . He stole some . B . He sold only some sheep C . He sold the wool of the sheep . D . He skinned (剥...皮) the sheep and sold their fur (毛皮) .
