<<西方建筑师的中国传奇>>

内容概要

I have had the pleasure of knowing Francesco Scolozzi for 10 years. During that time, he has travelled to China several times annually, frequently staying up to 4 months at a time. No matter where he goes to in China, whether it be Beijing, Dalian or another city, he is comfortable walking alone on the street, or taking the bus or subway, not different from other Chinese residents except that he does not speak the language.

<<西方建筑师的中国传奇>>

章节摘录

插图： Francesco Scolozzi, was born in Italy after a background in classical studies enrolled in the art school of Bologna where he received the degree in arts. Enrolled in the studies of architecture at Florence University where he received the degree of Doctor of Architecture with honour. During the seventies, he was part time professor at the University of Bologna and Florence University. He was also vice director of the architecture magazine Chiesa & Quartiere from year 1968 to 1971. He received the Master degree in Urban Design from Harvard University. Worked with internationally renowned architects Alvar Aalto and Kenzo Tange; with Kenzo Tange he worked at the Master Plan of Bologna Fiera District as design consultant for the Fiera District Corporation. In the year 1976 immigrated to Canada; where he was part time professor at the University of Toronto. Became Canadian Citizen and open his practice of Architecture in Toronto where he received Design Award from the Association of Architects and Urban Design Award from the City of Mississauga and numerous other recognitions.
