内容概要

编辑老师进行了研究。

经过一年多的努力,本书终于成稿,但已经错失了图书出版的市场机会。

恰逢《考研英语最后预测5套题》(以下简称《英语5套题》)出版之际,编辑部决定对"翻译"专项的部分内容先行出版,作为《英语5套题》的赠送资料。

为了答谢读者一年来对编辑部的支持,编辑部将安排专门的编辑负责回答读者的问题。

凡是购买本书的读者,均可以通过电子邮件或考研论坛(www.kaoyan.com)的答疑专贴享受修改作文的服务,同时解答考生在复习过程中遇到的其他问题。

但回答问题时,考生需要提供学习卡的相关资料。

章节摘录

版权页: 插图: The current farm bill gives some \$ 4.9 billion a year in automatic payments to growers of such commodity crops as corn and soy, thus driving down prices for corn, corn-based productsand corn-fed meats. Cows that are raised on corn, rather than grass, make meat that is higherin calories and contains more omega-6 fatty acids and fewer omega-3 fatty acids--a dangerous ratio that has been linked to heart disease. Cheap corn has also become a staple in highly processed foods, from sweetened breakfastcereals to soft drinks, that have been linked to an increase in the rate of type 2 diabetes, a condition that currently affects more than one in 12 American adults. Between 1985 and 2010 the price of beverages sweetened with high-fructose corn syrup dropped 24 percent. Over the same period the price of fresh fruits and vegetables rose 39 percent. For families on a budget, the price difference can be decisive in their food choices. There is no dearth of policy options. Research groups recommend leveling the playingfield by extending subsidies and insurance programs more widely to fruit and vegetable producers. The government can also use its own purchasing power, through school lunch programs and institutional buying decisions, to fill people's plates with healthy choices. The imperative, however, is clear: any new farm bill should at the very least remove the current perverse incentives for people to eat unhealthily. [492 words] 31. We learn from Paragraph 1 that U. S. farm policies [A] set a high price for healthy foods [B] result in the lower price of unhealthy diets [C] are in disagreement with natural laws [D] are inconsistent in their purposes 32. Farm subsidies have recently aroused concern because of_____. [A] the dramatic change in people's dietary habits [B] the public debate about food prices [C] the unfair flow of benefits from them [D] the huge increase in medical expenses 33. We can learn from paragraph 3 that Federal support for agriculture_____. [A] once played a great role in improving farmers' life [B] used to be decisive in American's food choices [C] are causing unhealthy diets to be more expensive than healthy ones [D] are flowing to large commodity producers instead of small ones 34. Which of the following statement is true according to paragraphs 4 and 5? [A] Type 2 diabetes relate more to highly processed diets than to minimally processed ones. [B] Omega-6 fatty acids are more correlated to heart disease than omega-3 fatty acids. [C] Corn-fed meats contains less calories than grass-fed meats. [D] Fruits and vegetables are in greater demand than corn and soy.

媒体关注与评论

上周入手五套题,如今做了三套,感觉自己的阅读提高了很多。 每篇的错误基本上可以控制在两个之内,有时候还会有全对的惊喜。 不得不说五套题很给力。

- ——原帖由金翅掠影发表:我认为张剑5套模拟是市面上最好的了,这个都弄明白了,考场就轻松多了。
- ——原帖由liuyunhe10看见很多人都在评论这本书,就买了一本拿来做,重点是阅读,个人感觉阅读的选材真的很不错,难,却不会让你无从下手,答案的设计和真题讲解的思路也是比较相近的,所以我觉得应该和今年的真题比较相似。
- ——原帖由stingme给那些还没买这本书的同学些参考——阅读文章整体难度比1 50篇下简单不少 , 文章题材上也能感觉出真题的影子。

我想说5套题已经很花心思在做,这钱花的值,有时间的同学可以买来完全按考试时间来做,因为考场上压力大,再加上做完这么大量的题的确吃力,去年考完英语我周围很多同学直接就放弃了。 不要在乎分数,在乎分数你就输了,没意义,能在有限的时间内读懂就行。

你现在要练就的是体力,如果你现在按考试时间做几套模拟,我想考试的时候心态上会完全不一样, 能保持冷静。
