章节摘录

Lady Helena soon joined her husband on deck, quite charmed at the prospect of such exciting sport. The sea was splendid, and every movement of the shark was distinctly visible. In obedience to the captain's orders, the sailors threw a strong rope over the starboard side of the yacht, with a big hook at the end of it, concealed in a thick lump of bacon. The bait took at once, though the shark was full fifty yards distant. He began to make rapidly for the yacht, beating the waves violently with his fins, and keeping his tail in a perfectly straight line. As he got nearer, his great projecting eyes could be seen inflamed with greed, and his gaping jaws with their quadruple row of teeth. His head was large, and shaped like a double hammer at the end of a handle. John Mangles was right. This was evidently a balance-fish - the most voracious of all the squalidae species.
