内容概要

Shanghai is a sea city .It neighbors the sea into which the Yangtze River flows through here. Although younger than those cities with centuries-old history and grand imperial palaces , Shanghais feature is most apparent in its vigor and living ness. Shanghai is deep like a sea. It opens its arms wide and welcomes whatever and who ever from the all corners of the world .It is this magnanimity and comprehensibility that make Shanghai a cosmopolitan city. Shanghai is colorful like a sea. Either the material abundance or the spiritual enrichment helps make Shanghai a fresh and enchanting city. The theme of Shanghai Expo embodies a universal hope for "Better City , Better Life". And the China Pavilion and Expo Axis have become new landmarks of Shanghai.
