内容概要

《从古代英语到标准英语》是“当代国外语言学与应用语言学文库”系列丛书之一。本书以历史文本为基础，通过对历史文本的介绍、阐释和评论，描述英语的演变。

This practical and informative course book is a fascinating, visual volume which leads the student through the development of the language from Old English, through Middle and Early Modern English to the establishment of standard English in the eighteenth century. At the core of this substantially expanded second edition lies a series of nearly 200 historical texts, of which more than half are reproduced in facsimile, and which illustrate the progressive changes in the language. The book is firmly based upon linguistic description, with commentaries which form a series of case studies demonstrating the evidence for language change at every level—handwriting, spelling, punctuation, vocabulary, grammar and meaning. Such a wealth of texts, as well as the structured activities and the various case studies, allow the volume to be used not only as a stimulating course text, guiding students through the analysis of data, but also as a comprehensive resource book and invaluable reference tool for teachers and students at all levels. Dennis Freeborn was formerly Head of English Language and Linguistics at the University College of Ripon York St John, and Chief examiner in A-level English Language, ULEAC. He is now Director of York English Language Studies Associates (YELSA), providing A-level English language teaching materials and in-service courses.
