<<语言学课题>>

内容概要

You can't learn how to do good essays and research projects by reading the subject books alone. there's a lot of knowledge to pick up-how get organised, what sorts of projects work best, how to avoid things going wrong, what to do with data, and how to sound like a serious researcher. If you don't want to have to learn from your mistakes projects in linguistics will be an invaluable companion for-all your independent research.

作者简介

Alison Wray is Assistant Director of the Wales Applied Language Research Unit at the Universtity of Wales , Swansca.
