## 章节摘录

When Mat was a kid , he was afraid to go to the toilet. He thought there was a little man living i ust under it , and he would attack ( 攻击 ) him if he was there too long. H e always went as quickly as possible. Many years later , he found that a good friend used to believe that his body was full of rice. He began to think , “ Did other people have strange ideas when they were kids ?

” He collected their stories and wrote a book. Later he started a website to collect more stories. The website is called “ I Used to Believe ” .Anyone can write stories there. What a funny and strange world ! Here is one from Tom. “ I think I am a normal adult , but when 1 was five , I used to believe that the goal of parents was to kill their kids. One day , I kept crying when my father was busy. He got angry and put his hand around my neck. He wanted to quiet me down .I thought , ‘ OK , this is the end. ’ Then he let me go and I thought to myself , ‘ I guess he won ’ t do it now because too many people can see him! ”
