内容概要

"See the world - Exhibition Design(fine)"(the Shenzhen City Arts and Cultural Development Company Limited) in light of these comments is really an excellent resource. A vast range of design display projects that have successfully had to come to terms with these issues in varying ways. All the projects presented here reflect a truly amazing range of vocabularies and ideas. In this way we can see the richness of different possibilities that have been taken, cross reference of them, see how they have been made, lit etc.
