<<实用护理英语情境口语>>

内容概要

《实用护理英语情境口语》按照临床护理学的基本内容设计英语对话情境，是非常实用的护理专业英语口语教材。

本书分序幕和8个护理工作情境。

情境1~5是从病人入院到出院全过程的基本护理工作程序，适用于普通护理和涉外护理专业。

情境6~8有分科侧重，护理专业中的助产、儿科、社区等专业方向可以在前5个情境的基础上增加各自需要的专业情境进行教学。

每个情境有一到数个情景对话，对话后配有典型句型、可以替换的词汇以及角色扮演练习，适合20~30课时的高职护理英语口语课程或在职护士职业英语口语培训课程，也可插入普通英语课程作为专业口语实训内容。

章节摘录

Scene 2 Preoperative Care : Giving Information Before an operation , a patient must be told how to get prepared for his operation . A nurse is assigned to have a talk with a patient about his operation the next day .

Nurse : Good morning , Mr . Smith . I ' m Wang Hua , your nurse today . Has Dr . Zhao told you that you are going to be operated on tomorrow morning? Patient : Yes , I was told yesterday .

Nurse : Have you signed the Surgical Consent Form yet? Patient : Yes , I have . What time will the operation start? Nurse : At 9 : 00 . But you ' ll have to get pre-medication and leave for the Operating Room at least half an hour before that . If your wife and other relatives come to see you , they must be here by 8 : 00 .

Patient : How long am I going to stay in the operating room? Nurse : It is hard to say . It will depend on the operation procedures and your recovery from the anesthesia . And after the surgery , you'll stay in the Recovery Room for some time until your condition is stabilized .

Patient : I see . This is the first time I ' m in hospital for surgery . I ' m really scared . Nurse : Take it easy , Mr . Smith . The surgeon who is going to give you the operation is very experienced and considerate . Everything will work out fine . Don ' t worry .

Patient : Well , I'll try not to . Will I feel pain during the operation? Nurse : As you ' re going to have a general anesthesia , you won ' t have any feel .

Patient : Thanks . Now I don ' t feel as nervous as before . Nurse : As part of the preparation for the surgery , you have to have a liquid supper this evening , and absolutely nothing by mouth after midnight .

Patient : I see .
