<<黄帝内经病症与临床应用:英文>>

内容概要

《黄帝内经》病症与临床应用（外感病证部分），ISBN：9787800054440，作者：王洪图著

书籍目录

Contents

Editor's Note

Foreword

Introduction: Principles, methods and dietary regulation in treating diseases

according to The Internal Canon

Section one: Treatment Principles

Chapter 1: Characteristics of the treatment

principles included in The Internal Canon

1. Deciding treatment according to time
2. Deciding treatment according to geographical location
3. Deciding treatment according to individual condition

(1) Age and constitution

(2) Diet, strain, stress, and spirit

Chapter 2: Treatment principles introduced in The Internal Canon

1. Guiding a matter along its course of development

(1) Conducting treatment according to the location of the pathogens

(2) Conducting treatment according to the rise and fall of the pathogens

2. Treating diseases by seeking the primary root cause

3. Reinforcing deficiencies and reducing excesses

4. Syndromes of cold, heat, warm and cool

5. Prevention and early treatment

Section two: Treatment Methods

Chapter 1: Acupuncture treatments

1. Depth of needle insertion and time of needle retention

2. Reinforcing and reducing needling techniques

(1) Reinforcing and reducing on the basis of respiration

(2) Reinforcing and reducing by opening and closing the needle punctures

(3) Reinforcing and reducing along and against the circulation in the meridian

(4) Reinforcing and reducing by Ji-swift and Xu-slow needle insertion

3. Acupuncture techniques

(1) Nine needling techniques

(2) Twelve needling techniques

(3) Five needling techniques

(4) Five variant needling techniques

(5) Miuci - contralateral needling

(6) Buji Zhuoci - puncturing with needles wrapped in thread

4. Number of moxa cones and the reinforcing and reducing achieved by moxibustion

(1) Moxa cones and number of moxa cones

(2) Reinforcing and reducing achieved by moxibustion

Chapter 2: Herbal Therapy

1. The Qi-nature, Wei-flavor, and functions of the herbs

2. Tropism of the five flavors

3. Contra-indication of the five flavors

(1) Prohibition against herbal overdose

<<黄帝内经病症与临床应用:英文>>

(2) Prohibition of certain herbs according to the disease

4. Methods of selecting herbs

(1) Examples of using herbs to treat diseases due to six exogenous pathogens

(2) Examples of using herbs to treat five Zang disorders

Chapter 3: Other Therapies

1. An Qiao and Dao Yin therapies

2. Emotional Therapy

(1) Using interacted emotions to treat diseases

(2) Analyzing the cause of the disease

(3) Giving verbal advice

(4) Other emotional therapies

3. Surgical therapies

4. Binding fingers and traction therapies

5. Additional therapies

Section Three: Nursing Care and Regulation

Chapter 1: Dietary nursing care and regulation

1. Selection of the five food flavors

2. Dietary selection and quantity control

3. Regulation of cold and hot foods

Chapter 2: Regulation of heat and cold and exercising the limbs

Chapter 3: Regulation of spirit and emotion Section Four: Clinical Applications: The Exogenous Diseases and Syndromes

Chapter 4: Wind Diseases and Syndromes

1. Pathogenic Wind on Superficial Parts of the Body

(1) Aversion to Wind

(2) Aversion to Wind with Sweating

(3) Aversion to Wind with Sweating and Headache

(4) Chills and Shivering with Headache and Heaviness in the Body, but No Sweating

2. Pathogenic Wind on Meridians

(1) Pathogenic Wind on Taiyang Meridian

(2) Pathogenic Wind on Yangming Meridian

3. Pathogenic Wind on the Exterior and Interior of the Body

(1) Wind Reverse Syndrome

(2) Exterior and Interior Excess Syndromes

4. Pathogenic Wind on Acupuncture Points

(1) Alcohol Wind

(2) Brain Wind Syndrome

(3) Head Wind

(4) Internal Wind

5. Pathogenic Wind on Zang Fu Organs

(1) Stomach Wind Syndrome

(2) Intestine Wind Syndrome

(3) Liver Wind

(4) Heart Wind

(5) Spleen Wind

(6) Lung Wind

(7) Kidney Wind (Including Acute Nephritis)

<<黄帝内经病症与临床应用:英文>>

6. Other Wind Diseases

- (1) Pestilence Wind (Including Leprosy)
- (2) Tiredness Wind Syndrome (Including Bronchiectasis and Pulmonary Abscess)
- (3) Latent Urticaria (Including Urticaria and Psoriasis)

Chapter 2: Cold Diseases and Syndromes

1. Pathogenic Cold on the Exterior of the Body

- (1) The Syndrome Manifested by Chills, Anhydrosis, No Fever, Abdominal Distention, Stuffiness and Agitation
- (2) The Syndrome Manifested by Fever, Chills, Anhydrosis Asthmatic Breathing and Superficial, Tense Pulse
- (3) The Syndrome Manifested by Fever, Chills, Anhydrosis, Coughing or Asthmatic Breathing, Retching, Diarrhea, Dysuria, Fullness in the Lower Abdomen, and Discomfort of the Throat or Thirst

2. Impairment of the Exterior and Interior by Pathogenic Factors

- (1) The Syndrome Induced by Cold Combined with Damp
- (2) Pathogenic Cold Combined with Wind Attacking the Exterior or Interior of the Body

3. Cold Impairing the Four Limbs and Brain

- (1) Cold Attacking the Four Extremities (Including Raynaud's Syndrome)
- (2) Cold Attacking the Brain Causing Headaches (Including Angioneurotic Headaches)

4. Pathogenic Cold Injury to the Zang Fu Organs

- (1) Cold Attacking the Lungs
- (2) Cold Attacking the Spleen
- (3) Cold Attacking the Kidneys
- (4) Cold Attacking the Liver
- (5) Cold Attacking the Stomach

Chapter 3: Summer Heat Diseases and Syndromes

1. Summer Heat in Combination with Cold

- (1) The Attack of Summer-heat in Combination with Cold
- (2) The Attack of Summer-heat and Cold Externally and Internal Damp Retention Syndrome

2. Summer Heat in Combination with Damp

- (1) Syndrome Manifested by Fever, Sweating, Thirst and Heaviness of the Body
- (2) Syndrome Manifested by Headache, Restlessness Thirst, Abdominal Pain, Vomiting, Diarrhea, and Dysuria with a Deep-Yellow Complexion

3. Summer Heat Externally with Interior Heat

4. Summer Heat on Lungs

5. Summer Heat on Yangming Meridian

6. Summer Heat Injury to Qi and Yin

7. Summer Heat on Heart

Section Five: Dampness Diseases and Syndromes

Chapter 1: Damp Pathogen on the Surface of the Body

1. Common Cold Due to Dampness
2. Common Cold Due to Mildew and Dampness
3. Damp Pathogen on Superior of Body
4. Acne and Miliaria

Chapter 2: Damp Pathogen on Limbs and Meridians

1. Damp Bi Syndromes

- (1) Simple Damp Bi Syndrome
- (2) Dampness and Cold Bi Syndrome
- (3) Dampness and Heat Bi Syndrome

<<黄帝内经病症与临床应用:英文>>

- 2. Constriction, Spasm, Atrophy and Weakness
- 3. Kidney Bi Syndrome
- 4. Damp Pathogen on Extensor and interior
- 5. Jaundice
- Chapter 3: Damp Pathogen on the Sanjiao Zang Fu Organs
 - 1. Retention of Dampness in Middle Energizer
 - 2. Retention of Dampness in Triple Energizer
 - 3. Damp Pathogen on Lungs
 - 4. Damp Pathogen on the Spleen
 - (1) Treating by driving out water
 - (2) Combination of reinforcing and reducing treatment
 - 5. Damp Pathogen on the Kidney
 - 6. Damp Pathogen on the Spleen and Kidney
 - 7. Damp Pathogen on the Large Intestine
- Section Six: Dryness Diseases and Syndromes
 - Chapter 1: Dryness induced exterior syndromes
 - 1. Cold-dryness induced exterior syndrome
 - 2. Warm-dryness induced exterior syndrome
 - Chapter 2: Dryness impairing the configuration and orifices
 - 1. Dryness impairing the skin
 - 2. Dryness impairing the orifices
 - 3. Dryness impairing the tendons and meridians
 - (1) Dryness and fire impairing the Qi system
 - (2) Dryness impairing the Yin blood
 - Chapter 3: Dryness damaging the lungs
 - 1. Dry-heat injuring the lungs
 - 2. Dryness with phlegm
 - Chapter 4: Dryness impairing the stomach and intestines
 - 1. Dry-heat damaging the stomach
 - 2. Dryness in the intestines with constipation
 - Chapter 5: Dryness impairing the liver
 - Chapter 6: Dryness impairing the kidneys
- Section Seven: Fire and Heat Syndromes
 - Chapter 1: Points manipulated to treat heat syndromes
 - 1. Fifty-nine points from Plain Questions and their application
 - (1) Twenty-five points used to expel heat from Yang meridians
 - (2) Eight points for clearing heat from the chest (as the four points below are bilateral, they total eight actual manipulation points)
 - (3) Eight points for clearing heat from the stomach (as the four points below are bilateral, they total eight actual manipulation points)
 - (4) Eight points for clearing heat from the four limbs (as the four points below are bilateral, they total eight actual manipulation points)
 - (5) Ten points for clearing heat from the Five Zang Organs (as the five points below are bilateral, they total ten actual manipulation points)
 - 2. Fifty-nine points from Miraculous Pivot: Heat Syndromes
 - (1) Twenty-eight points on hand and foot
 - (2) Thirty-one points on the head, face and neck

<<黄帝内经病症与临床应用:英文>>

Chapter 2: Treatment is given by differentiating heat in six meridians

1. Heat in Taiyang
2. Heat in Yangming
3. Heat in Shaoyang
4. Heat in Taiyin
5. Heat in Shaoyin
6. Heat in Jueyin

Chapter 3: Treatment of febrile diseases according to initial symptoms

1. Skin pain, stuffy nose, small rashes appearing on the nose and puffiness of the face.
2. Pain in the chest and hypochondrium and restlessness of the hands and feet
3. Pain in arms
4. Headache and distention of the head
5. Pain in the lower leg and foot
6. Heavy sensation of the body, bone pain, deafness, drowsiness
7. Dizziness and fullness of the chest and hypochondrium
8. Diet in treating febrile diseases

Chapter 4: Treatment of febrile diseases according to the pulse

1. Febrile diseases after 3 days with the Cunkou pulse calm and the Renying pulse restless
2. Febrile diseases after 7 or 8 days with the Cunkou pulse is rapid and asthmatic breathing

Chapter 5: Treatment according to the primary associated symptoms

1. Stiffness and discomfort of the body, irritability, dry throat and dry lips
2. Headache, bluish complexion, restlessness of hands and feet, or inability to walk due to flaccidity of lower limbs, profuse tears
3. Reoccurring epilepsy, convulsions of hands and feet, manic behavior, or hair loss
4. Headache, twitching and pain of the temple region and around the eyes, and epistaxis
5. Heaviness of the body and heat in the intestines
6. Spasm and pain around the umbilicus, fullness of the chest and distention of the hypochondrium

Chapter 6: Differentiation and treatment of the febrile diseases of the five internal organs

1. Heat induced liver diseases
2. Heat induced heart disorders
3. Heat-induced spleen disorders
4. Heat induced lung disorders
5. Heat induced kidney disorders

Chapter 7: Heat induced Six Fu Organ disorders and the syndrome of heat entering the uterus

1. Heat induced gallbladder disorder
2. Heat induced stomach disorder
3. Heat induced disorder of the small intestine
4. Heat induced disorder of the large intestine
5. Heat induced triple energizer disorder
6. Heat induced bladder disorder
7. Heat on the uterus (the chamber of blood)

Appendix One: Simple Formulas for Febrile Diseases Epilogue

<<黄帝内经病症与临床应用:英文>>
