前言

随着我国高等职业教育的进一步发展, 高职高专教育已占据了高等教育的半壁江山。

《新时代大学英语》系列教材依照教育部《高等职业教育英语课程教学要求(试行)》, 本着以就业为导向、实用为主、够用为度、全面提升英语应用能力的原则进行设计、编写。

本系列教材打破传统教材编写模式, 结合一线教学实践, 吸收国外优秀教材之优点, 融入全新的教育理念和科学的教学方法, 在实用性、适度性、趣味性和时代性等几个方面特色鲜明。

实用性 教材内容贴近实际, 以学生的日常生活和职场交际为着眼点, 使学生在循序渐进的听、说、读、写、译等训练中提升语言的应用能力, 真正做到学以致用。

适度性 教材打破传统的单一结构性的束缚, 依据学生的接受能力和实际需求选取学习内容, 层次分明, 难易适度, 能够满足不同基础学生的学习需要。

趣味性 教材板块设计灵活、多样; 情境设置易于操作, 有助于学习兴趣的提高, 使学生主动参与到课堂的学习当中, 建立互动的教学模式。

时代性 教材所选文章内容紧扣时代脉搏, 涵盖当前社会热点、重大事件和流行话题等诸多方面, 能够使学生在熟悉的背景之下进行英语学习, 激发学习热情, 提升学习效果。

我希望教材能够受到学习者的欢迎, 更希望能够得到同行专家的批评指正, 以更好地满足广大学习者的需求, 适应新时期高等职业教育发展的需要。

章节摘录

Interest and hobby play a push role in selecting jobs. However, personal interest and hobby are the important evidences in selecting jobs, not the whole evidences. Only when you build them on certain abilities, and connect with social needs, they may acquire realistic basis to accomplish them. Therefore, it is necessary to cultivate personal interests and hobbies, develop personal expertise (专门知识或技能), and thereby make interests and hobbies aimed to enlarge the field of finding a job. Psychologists prefer that, you should, according to your personality, select your job, only that can you connect your activities with your career~bring your talent and specialty into full play and control your work with high proficiency. Such as:

1. Those with rational personalities prefer to think carefully, expertise in weighing the merits and demerits. So, they are suitable for management, research and educational jobs.
2. Those with emotional personalities display strong and rich emotion, strong emotional activities, so they are suitable for art and service jobs.
3. Those with strong will have clear goals, and they act positively and determinedly. So they are suitable for determined and operational jobs.

It is not difficult for us to find the phenomena in selecting a job relating to temperament: some choose teaching as their career, but have violent character and no patience; some choose reporter, but they react slowly and have steady personality. Therefore, original ideal careers lose their original color. The reason is not the problem of those people's abilities, but that their temperaments don't suit the careers they choose. From that we know, temperament not only affects one's choice of career, but also directly affects the fate of specific jobs. When selecting a job, we should do it according to our temperament.
