<<维持黄河健康生命>>

内容概要

河流孕育了人类文明,但人类在发展的过程中却造成了对河流的伤害,并为此付出了代价。

一个时期以来,黄河存在且日益严重的主河槽淤积、萎缩。

“二级悬河”形势严峻,水资源供求矛盾尖锐,水污染加剧等问题,无不反映出黄河的生存危机。

因此,作者提出黄河治理的终极目标是维持黄河健康生命,据此建立了“1493”治河体系。

同时,还就调水调沙不同模式,黄河洪水的控制、利用、塑造,粗泥沙控制的“三道防线”,构建黄河水沙调控体系,以及黄河下游河道治理等内容进行了阐述。

书籍目录

Chapter1 A Survey of River Life Section1 River-Cradle of Civilization of the Human Race Section2 Harms to Rivers by Human Beings and Cost Paid Section3 Establishment of the Concept of River Life Section4 Actions at Home and Abroad to Save Rivers Chapter2 Concept and System of Maintaining the Healthy Life of the Yellow River Section1 Maintaining the Healthy Life of the Yellow River—Ultimate Goal of the Yellow River Harnessing Section2 Research Content and Stage Division of Maintaining the Healthy Life of the Yellow River Section3 River Harnessing System of “ 1493 ” Chapter3 Advancement and Major Roles of the “ Three Yellow Rivers ” Section1 Advancement of the “ Three Yellow Rivers ” Section2 Relationship Among the “ Three Yellow Rivers ” and Their Major Roles Chapter4 Water and Sediment Regulation of the Yellow River Section1 Water and Sediment Regulation of the Yellow River and Scouring and Silting Regularities of Its Channel in the Lower Reaches Section2 Water and Sediment Regulation Based on Single Operation of Xiaolangdi Reservoir Section3 Water and Sediment Regulation Based on Ditching of Water and Sediment Processes from Different Source Areas Section4 Water and Sediment Regulation Based on Joint Dispatching of Reservoirs on the Mainstream and Artificial Perturbation of Sediment Chapter5 Control, Utilization and Modeling of Floods of the Yellow River Section1 Flood Control Section2 Utilization of Floods Section3 Modeling of Flood Chapter6 “ THREE Line of Defense ” in Control of Long Coarse Sediment of the Yellow River Section1 Analysis of Particle Diameter of Sediment of the Yellow River Section2 “ THREE Line of Defense ” in Control of Long Coarse Sediment of the Yellow River Chapter7 Establishment of Water and Sediment Regulation System of Yellow River Chapter8 Strategies of Downstream Channel Harnessing of the Yellow River References
