

图书基本信息

书名：<<国际导航制导控制学术会议论文集>>

13位ISBN编号：9787810732185

10位ISBN编号：7810732188

出版时间：2007-8

出版时间：哈工程大

作者：赵琳

页数：544

版权说明：本站所提供下载的PDF图书仅提供预览和简介，请支持正版图书。

内容概要

本学术论文集收集了100多篇导航制导控制的方面的优秀学术论文，内容包括航海航空导航，控制理论和应用，模拟系统的设计与实现。

本书可供相关专业的学者和专家们借鉴参考。

书籍目录

NAVIGATION & GUIDANCE Simulation Software for a Low Cost Electronic Inertial Navigation System
Investigation of the Earth Gravitational Field by the Satellite Gradiometry Methods Method Research on
GPS/SINS Integrated Navigation System Initial Alignment on Moving Base The Application of Data Fusion To
INS/GPS/TAN Integrated Navigation System An Application of GNSS/INU/DMAP Location and Navigation
Technology in Intelligent Transport Systems Local-Area Satellite Navigation System (LNS) Improved BP
Algorithms Applied to Fault Diagnosis of Stabilized Gyrocompass System The Application of Asynchronous
Kalman Filter to Integrated Navigation System The Application of DGPS in Underwater Objects Tracking and
Positioning System The Application of the Back-Propagation Neural Network in the SINS/GPS System
Malfunction Identification The Accurate Modification of Coordinate of Celestial Bodies Based on Proper Motion
Self-Correction of Direct Sensitive Magnetic Compass Knowledge-based Scene Navigability Model of Scene
Matching System Fuzzy Federated Kalman Filter And Its Application to Integrated Navigation System The
Research of Identifying the Coefficients in the Platform Drift Error Model Application of Optimal Two-position
Alignment in SINS Self-alignment CONTROL THEORY & APPLICATIONS SYSTEM MODELING &
SIMULATION, PATTERN RECOGNITION PAPER UNAVAILABLE AT TIME OF PRINTING
