<<隐喻的研究与应用>>

内容概要

《隐喻的研究与应用》主要内容简介：Researching into metaphor has become one of the fastest-growing and important areas of language research over the past twenty years, and metaphor is now recognised as central to language use. The implications of these findings are only just beginning to be felt in applied linguistics and this book is designed to convey the excitement of metaphor study to a wider applied linguistic audience of researchers, teacher trainers, programme developers and postgraduate students. The authors of the 12 papers are all international active researchers, contributing from their various backgrounds to this lively collection. Researching and Applying Metaphor presents a series of case studies plus an innovating initial section which discusses key aspects of researching metaphor in use. Lynne Cameron is a senior lecturer at the School of Education, University of Leeds. Graham Low is a senior lecturer and Director of the Language Teaching Centre and EFL Unit, University of York.
