 - 3) Para 2. Does "the Cold War" in "a bipolar system like the Cold War" refer to "the severe political struggle between the US and the Soviet Union from the end of WWII in 1945 until the latter collapsed in 1991, which, though very severe did not lead to actual fighting"? Why?
 - 4) Para 2. Does "cooperate and compete with each other in shifting patterns" mean that the methods employed by the countries in their cooperation and competition change from time to time?
 - 5) Para 4. Do you agree to the interpretation of the sentence concerning Rome and China as follows, internal decay weakened fifth-century Rome and forces from outside weakened nineteenth-century China? Give reasons from the text and your own.
 - 6) Para 4. Explain in your own words why the bipolar system in the Cold War endures for four decades.
 - 7) Para, 4. What do the "one state" and "the rivalry" in "until one state no longer could sustain the rivalry" refer to? How did the bipolar system in the Cold War end?
 - 8) Para 5. What does "actor" mean and refer to?
 - 9) Para 5: Does "power-wielder" mean an official, who has administrative power over his subordinates and the common people?
 - 10) Para 6.. Why does Huntington say "the United States will be the first, last and only global superpower"?
