前言

《医学英语综合教程》是在2006年出版的《医学英语》（第一版）的基础上，结合近几年教学改革和教学实践的需求，进行部分修订而成的。

适用于高等医学教育中专起点专科教育阶段用书即“3+2”教育。

第二版主要进行了以下几个方面的修订：1.上册作为主教材，按140学时编写，较第一版有压缩，供两学期使用。

使教材更简洁、实用。

2.上册教材的对话、课文以及下册的听力材料，特邀外籍专家朗读，制成光盘，随书发放。

以加强学生的听说能力训练。

3.对第一版的语法知识去粗取精，保留经典。

4.增加了四个部分的测试练习题，题型全部按当前国内医学英语考核模式设立，旨在培养学生的英语自学、自测能力。

5.在附录中增列基础语音知识介绍，以巩固学生的英语学习基础。

章节摘录

Directions :This part is to test your reading ability. There are 5 tasks for you to fulfill. You should read the reading materials carefully and do the tasks as you are instructed.

Started in 1636, Harvard University is the oldest of all the many colleges and universities in the United States. Yale, Princeton, Columbia and Dartmouth were opened soon after Harvard. In the early years, these school were much alike. Only young men went to college. All the students studied the same subjects, and everyone learned Latin, Greek and Hebrew. Little was known about science then, and one kind of school could teach everything that was known about the world. When the students graduated, most of them became ministers or teachers.

In 1782, Harvard started a medical school for young men who wanted to become doctors. Later, lawyers could receive their training in Harvard s law school. In 1825, besides Latin and Greek, Harvard began teaching modern languages, such as French and German. Soon it began teaching American history. As knowledge increased, Harvard and other colleges began to teach many new subjects. Students were allowed to choose the subjects that interested them.
