章节摘录

(5) The play is short on plot, but has some nifty one-liners. (6) "I'm my own worst enemy," sighs Andy after a setback. (7) "Not while my mother's alive you aren't," shouts Flo, his hard-working wife played by the ample and amply talented Sarah Hendricks. (8) The small cast works together beautifully, and, with the sole exception of bartender Daniel Moore, who comes across a bit too proper for the keep in Andy's local, they are fiercely funny. (9) The characters set up the laughs and the actors knock them off one after another with impeccable timing that accelerates the first chortles into a roar of belly laughs in each scene. (10) The adaptation doesn't really try to be a musical play, it is determined to stick as close to the comic strip page as possible. Even the set decoration is limited to black and white. (11) The plinkety score and short, simple lyrics reinforce the effect. (12) In another musical the limited voices of the cast and the sparse, single piano accompaniment would provoke disappointment. (13) But in "Andy Capp" it all fits together. (14) You may not love Andy Capp the boozy layabout, but somehow "Andy Capp" the musical bullies and brags its way into your affections.
